FLAGON

The body of the kettle is transparent and bright, which makes the red wine and the air have a larger area of contact, and it plays its role more quickly and efficiently. The bottom of the pot is wide and flat, which effectively increases the stability of the decanter, thus reducing the risk of breakage.

CANDLESTICK

Decorative candle holders: beautiful shape and crystal design. It may be Christmas decorations. And they look very bright when you turn on tea wax inside. It is wonderful to give a lovely glow to your Christmas party. Unbeaten quality, only for your very good taste

PLATE

These attractive Glass Round Serving Plates are decorated with a rich gold rim. Each plate is created out of crystal - clear glass and gold art. They are durable enough for everyday use. It can be used separately, as a saucer, or as a tray under tea or drinking glass.
